

## Prov Chair | Control Guide & Features

A low profile nylon structure creates strength and stability, while it's breathable mesh provides precise tension allowing for airflow and a focused posture.

### Sturdy Support

Nylon backing and plastic frame and armrests create a strong and comforting frame.

### Back Lock

Lock and unlock the back support as needed to achieve your desired level of support.

### 5 Star Base

Our 5-star polished aluminum base creates a clean and modern chrome-plated appearance.

### High Quality Mesh

The ribbed mesh fabric provides precise tension allowing for airflow and a focused posture.

### Modern Design

One piece German elastomeric suspension back and seat.

### Pneumatic lift

Achieve your desired height with a modern, discreet and easy to adjust lever, smoothly taking you up or down.

### Smooth Glide Casters

Casters provide a smooth glide and even movement.
